The Director of Central Intelligence

Washington, D.C. 20505

Intelligence Community Staff

9 March 1982

MEMORANDUM FOR THE RECORD

FROM:

Chairman, ELINT Exploitation Working Group

SUBJECT: Fifteenth Meeting of the ELINT Exploitation Working Group

1. On 25 February 1982, the Working Group Meeting began by discussing the data collection schedule. At issue was the additional time needed by the SIGINT Committee for its representatives to coordinate the security procedures proposed for the three new TALENT-KEYHOLE subcompartments. It was decided that a cable would be sent to the Operational Centers delaying the deadline for their responses to our questions about ELINT exploitation from 5 March to 2 April 1982.

2. It was agreed that any additional changes needed in exploitation at the Mission Ground Stations would be included in the Working Group responses to the study. The significance of any such changes is likely to be small since the planning for the improvements programmed for space-borne ELINT should already be completed for these centers.

3. An outline of a proposed data reduction strategy was submitted to the Working Group for review. Comments and proposed modifications will be discussed at the next meeting.

4. The agenda for the sixteenth meeting is attached.

5. In addition to the Chairman, the attendees were:

, DIA
Ronald Polan, ONI
Robert Miller, MAJ, USAF, OACS/I
Perry Cowgill, LTC, USA, OACSI
Fred Booth, LT CDR, USN, SAF/SS
, NSA
